Hilton Doubletree
Dearborn, MI

Participating Industry Leaders

AUTOMOTIVE DESIGN and PRODUCTION

PERFECT COSTING SOLUTIONS
Software | Knowledge | Services

PLEX SYSTEMS

SAS Automotive Systems

Expert Insights. Actionable Strategies.

Where are metals and resins supply/demand and pricing levels headed and what should you do about it? The 2012 Motor Vehicle Metals & Resins (MVMR) conference will deliver expert insights on future supply/demand and pricing scenarios and actionable strategies that you can implement to effectively manage your supply chain.

Building upon the overwhelming success of the 2011 MVMR conference, as indicated in the results of an attendee survey, this year's conference will bring together both metals and resins industry thought leaders. These experts will share their insights on where the market is headed and provide actionable strategies to optimize your supply chain. The 2012 MVMR Conference will keep the same format from 2011, utilizing both keynote presentations and workshops sessions to deliver attendees vital industry information.

The MVMR conference board of directors has been established to ensure that the conference's content provides attendees with expert insights and actionable strategies to combat the volatile metals and resins markets.

The 2012 MVMR board is comprised of the following distinguished individuals:

- **Dave Andrea**, Senior Vice President, Industry Analysis and Economics , Original Equipment Suppliers Association (OESA)
- **Bruce Benda**, VP Automotive and Transportation , Bayer MaterialScience LLC
- **Steve Binkowski**, Vice President of Purchasing and Sales, Toyota Boshoku America
- **Ermal M. Faulkner**, Director of Global Exterior & Raw Materials Purchasing, Ford Motor Company
- **Laurie Harbour**, President and CEO, Harbour Results Inc.
- **Jeff Mengel**, Partner/Plastics Industry Group Leader, Plante Moran
- **Lance Reinhard**, Executive Director Global Procurement & SCM, American Axle & Manufacturing
- **Steve Rodgers**, President, Automotive Parts Manufacturers' Association (APMA)
- **Bruce Swift**, CEO, Diversified Machine
- **Carrie VanEss**, Vice President of Procurement, North America, Magna

The MVMR conference is vital for metals and resins supply chain and sales executives and professionals seeking to gain future supply, demand and pricing insights from global thought leaders.
